LIMESTONE COAST

## BACKGROUND

The cool climate growing conditions of the Limestone Coast (located in the South-East corner of South Australia), make it the perfect fruit source for our Limestone Coast Selections. Cool Climate fruit sourcing ensures the wines have generous amounts of natural acidity, an underlying theme of freshness and varietal character, and importantly, a high level of sophistication and a sense of place. Wines that reflect both the grape variety as well as the vineyards and sub-districts they're grown in.

## VINTAGE 2023

2023 was a wonderful vintage. A mild, even ripening season gave us fantastic yields and outstanding fruit quality. This wine is made in a way that allows the juicy intensity of this parcel of fruit to shine. A small portion of whole-berry ferment giving the wine a lovely aromatic lift. Some older oak maturation for palate texture and complexity.

## TASTING NOTE

- Colour: Ruby red core with a pink rim.
- Aroma: Floral notes of soft rose and lavender, followed by wisps of freshly picked strawberries and bright red fruit. A hint of spice and brambly notes add an extra layer of complexity.
- Palate: Light-medium bodied with luscious red fruits. The juicy acidity and plush tannin make this a highly drinkable and very moreish wine.
- Serving: Pizza.
